

TOGAF® 9 Certified

The purpose of certification to the TOGAF 9 Certified qualification is to provide validation that, in addition to the knowledge and comprehension of TOGAF 9 Foundation, the Candidate is able to analyze and apply this knowledge.

The learning objectives at this level therefore focus on application and analysis in addition to knowledge and comprehension.

Target Audience

- Individuals who require a deeper understanding of the TOGAF 9 standard
- Professionals who are working in an organization where the TOGAF 9 standard has been adopted and who need to participate in architecture projects and initiatives
- Architects who will be responsible for developing architecture artifacts
- Architects who wish to introduce the TOGAF 9 standard into an architecture practice
- Architects who want to achieve a recognized qualification to demonstrate their detailed knowledge of the TOGAF 9 standard

The Value of this Certification

Individuals certified at this level will have demonstrated their understanding of:

- How to apply the ADM phases in development of an Enterprise Architecture
- How to apply Architecture Governance in development of an Enterprise Architecture
- How to apply the TOGAF Architecture Content Framework
- How to apply the concept of Building Blocks
- How to apply the Stakeholder Management Technique
- How to apply the TOGAF Content Metamodel
- How to apply the TOGAF standard recommended techniques when developing an Enterprise Architecture
- The TOGAF Technical Reference Model and how to customize it to meet an organization's needs
- The Integrated Information Infrastructure Reference Model
- The content of the key deliverables of the ADM cycle
- How an Enterprise Architecture can be partitioned to meet the specific needs of an organization
- The purpose of the Architecture Repository
- How to apply iteration and different levels of architecture with the ADM

- How to adapt the ADM for security
- The role of architecture maturity models in developing an Enterprise Architecture
- The purpose of the Architecture Skills Framework and how to apply it within an organization
